

SECOND

EUROPEAN CONGRESS

ON

INNOVATIONS IN TEXTILES

FOR

HEALTH CARE

7 & 8 FEBRUARY 2017

MONASTERY OF THE AUGUSTINIAN FATHERS - GENT - BELGIUM

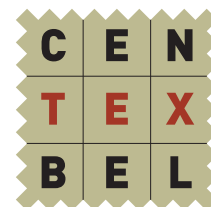

Centexbel organises together with Fedustria, POM-West-Vlaanderen, Innovatiecentrum and Enterprise Europe Network the second European congress on INNOVATIONS IN TEXTILES FOR HEALTHCARE covering one and a half days, including lectures, scientific posters, sponsor exhibition stands and B2B meetings.

The congress addresses both the textile industry and the health care sector. The intense cooperation and co-creation between these sectors result in market developments with a distinct social and economic added value.

Online registration form : <http://www.centexbel.be/registration-to-healthcare-congress>

Conference dinner

The conference dinner will take place on Tuesday evening February 7th, 2017 at 7 pm in the Monastery of the Augustinian Fathers.

The congress dinner (€ 60/person) is not included in the registration fee and has to be ordered separately on the registration form.

B2B meetings

During the conference, the Enterprise Europe Network organises international business-to-business contact days where you have the opportunity to meet potential partners. In preparation of these meetings, you will be asked to complete a business profile by specifying the kind of cooperation you are looking for. An online catalogue of the profiles will be made up allowing the participants to select the companies they would like to meet or to be invited in turn. On the basis of these selections, the Enterprise Europe Network will schedule individual appointments.

Official EEN website for practical information and registrations: <https://www.b2match.eu/textile4health2017/>

Centexbel Poster Award 2017

Scientists and researchers are invited to submit scientific posters of their research activities and results within the scope of the congress.

The poster show is an important part of the event and will be accessible during coffee and lunch breaks.

The scientific poster will be briefly presented to the congress audience on the first day of the congress, just before the first break.

During the poster sessions, a jury, composed of the chair people, will select the award winning poster. All scientific posters are reviewed and rated on the basis of their scientific quality, clarity and impact. The highest scoring scientific poster will be announced during the closing lecture.
