

Call for lectures and posters

3rd International Conference on

Fire-safe

Textiles and Plastics

1,5 days European conference with lectures, scientific posters and sponsor stands

October, 12th & 13th, 2017

Fire-retardant materials play a very important role in society. The main drivers are the growing international demand for flame-retardant products as a consequence of more stringent fire safety and environmental requirements, and new approaches to sustainability.

The conference aims to identify the main changes and trends on the flame retardants market and to develop adequate strategies for today and tomorrow.

This international conference will provide a comprehensive update on all aspects of fire-retardancy and FR additives for textiles and plastics.

You are kindly invited to present a lecture and/or present a scientific poster at the FR-Conference in Ghent.

The international FR conference will focus on:

- burning behaviour of materials
- intrinsic flame-retardant fibres and polymers
- flame retardant coatings and finishes
- flame retardants
- legislation
- standardisation
- applications ...

Expectations

- experiencing the latest developments in the field of products, standards, test methods, legislation
- discovering new application fields
- understanding FR, environment and legislation related issues
- networking

Target group

- producers and distributors of flame-retardant fibres, polymers, compounds and FR-additives
- producers of FR materials (textiles and plastics)
- research centres, schools and universities
- testing laboratories
- architects (tender specifications)
- authorities (tenders, fire-fighting, environmental legislation, REACH directive...).

Presentation

The international conference will include presentations in the following modes:

LECTURES

Each lecture will be restricted to 20 minutes and followed by a brief discussion. Commercial talks are not within the scope of the conference.

SCIENTIFIC POSTER PRESENTATION

The posters will be displayed in the coffee break area and also be presented as flash poster presentations of 2 to 3 minutes each. During the poster sessions a jury will select the winning posters. The choice of the jury will be based on the scientific excellence of the poster and on the presentation of the information. The best presenters will be awarded a prize: the FR Award.

All abstracts (lectures and posters) have to respect the formatting guidelines for authors

SPONSORING

Promotion stand during the entire conference and publication of your corporate logo on the website, welcoming slides and other conference-related material. The various sponsoring formulas are available on <http://www.centexbel.be>

Important dates

Submission of abstracts lectures and abstracts scientific posters: May 31st, 2017

Confirmation of the contribution acceptance: June 30th, 2017

Submission presentation lectures and A4 scientific posters: September 15th, 2017

Submission poster at conference: October 12-13, 2017

Conference language

The official conference language is English

All submissions (lectures & poster presentations) shall be written and presented in English
