The company is a member of Centexbel

declares herewith that the company desires to participate in the above mentioned Users Committee

The summary of the project and the purpose of the Users Committee is described in the enclosed information file. Participation in the project involves that (i) the company will be invited to information and demonstration sessions, to meetings of the project consortium and that it will be informed about the results of the collective research, (ii) the company may formulate concrete proposals to steer the project, and (iii) the company may implement the obtained information under favourable conditions in agreement with the organising associations.

The undersigned declares to have examined the Code of Order of the Users Committee for collective research (see annex) and to accept the terms thereof.

The company desires to make use of the possibilities in the framework of the measure related to the "Reduction of advanced taxes for research scientists" (restricted to Belgian companies), and therefore wishes to receive an "Agreement of Collaboration".
